

RADIATION SAFETY INCIDENT/SPILL ASSISTANCE CALL LIST

Call 9-1-1 first if a Life Safety and/or Fire Response is needed

When dialing 9-1-1 from campus, there is a 7 second delay in connecting.

DO NOT HANG UP

Stay with the individual and provide basic First Aid until First Responders arrive.

Call 335-9000 for uncontrollable flooding of facilities due to a plumbing or roof leak.

Directions for Use of the Incident/Spill Assistance call list: For an incident involving radioactive material and/or radiation producing machines, call the number at the top of the list (Lab Supervisor or Authorized Radiation User). If you don't get an answer, leave a voice mail with instructions on how you can be reached during the incident. Continue down the list until you reach a person who can give you appropriate advice or assistance.

Contact Phone Numbers

Work Day

Afterhours/Weekends

Lab Supervisor: _____

Authorized User: _____

Radiation Safety:

Rey McGehee, Radiation Safety Officer	(509) 335-6763	(509) 335-9000
